THEY SAY.

Indeed.

The wind bag.

Will not be removed.

Just wait a few days.

All that glitters is not gold.

The Post was subsidized.

It has all ways been opposed to a clean government.

Listen you will hear a bo...b.

Alas! his occupation is gone.

Astwood's democratic weekly will take the place of the supposed daily.

Just when they will get the plant we don't know.

It is planted now six feet under ground.

The New York Cleveland league denounces Astwoods league a failure.

The New York boys know a thing when they see it.

He will rent a house and put her in it.

Come to my office after office hours is what the wind bag wrote a lady in this city.

There is not a respectable woman in Washington remarked the wind bag.

If one should come in contact with the wind bag she would be contaminated.

He will go and don't you think otherwise.

The curtain that hides Taylor's official corruption in office will be hoisted and then the people will see who he is.

Mr. Cleveland no matter how much inclined he would be to keep him could not.

Give the President time to read the evidence it is as black as midnight.

Rev. (?) P. H. White who failed to extort 15 dollars from a man in the interior department sometime ago told him that he would have the two twin political acrobats dismiss him. Taylor and Astwood had him dismissed.

Just two weeks previous to his appointment the two crushed politicians indorsed this man and had him appointed.

Geo. Smith is Taylors legal advisor.

He should advise him to return to Kansas.

L. W. Pulies will no doubt be given a chance to carry his threats into execution and an opportunity to use that gun.

Guns are good things when you know how to use them.

The President will indorse anything Taylor does, so remarked Astwood.

President Cleveland will not indorse official corruption.

He is too good a man.

Still has informed the President that Taylor knew all about it.

Pulies one of the legal advisors of C. H. J. Taylor, remarked that the President must allow the wind bag certain privileges.

Pulies is not in it.

That is he is in the soup.

The axe will fall.

Mr. Still says that there will not be any genial cry.

HOW TO LOOK PRETTY.

Outing flannel is a good material for summer night dresses for young children. The material is sometimes called skaker flannel.

A baby boy eighteen months old does not look well in a Tam O'Shanter. A soft silk cap would become him better.

For a boy three years old blouses and kilts are appropriate. The skirts may be plaited or gathered and the effect of the waists varied by having different shaped collars.

There is usually not much difference made between the dress of little boys and girls at the age of two years, yet some people like a change.

At an Atheletic Carnival the ladies should dress to represent the occasion, at all the booths suggested the articles that should be sold.

At the foot ball booth a most affective group as aids may be gowned in arange net over black satin. The skirts should be of accordion plaited net on which should be oblong foot balls of black and orange satin.

The college booth may be fairly represented with costumes of solid blue or crimson, in the style of the Princeton costumes.

The base-ball costumes may be of a combination, the skirts reaching only to the ankle where tan base-ball shoes should be seen. A blouse waist, with belt of leather and a visored cap will complete the costume.

The aids at the aquatic booth will look well in a full skirt of boating flannel, with knitted jerseys made with deep sailor collar and cuffs of contrasting colors. With this costume yachting capes should be worn.

The night dress of to-day is made al most like a dress. A full bodice, decidedly long waisted and very loose, but yet fitting well, has the skirt gathered on to it, the joining is hidden under a two inch band of footing, through which a ribbon is run and tied in sash fashion in front.

The woven silk vest has almost entirely unsurped the place of the chemise sometimes button on the shoulder, but very often a narrow ribbon is encased about the neck, which makes it fit closely.

Silk petticoats have pinked ruffles, with lace ones alternating. These are not made as wide as the white skirts, for if they were they would make such a noise as to put them in bad taste.

A high busted corset is selected for the woman who is very large, but for her who is slender a lower one will be found to fit better and to give a better shape.

Some long autumn capes are seen in light gray beige cloth, without any lining. They are composed of three wide ruffles, machined stitched all around with either a ruching of cloth or ribbon around neck.

THE AFRO-AMERICAN BUREA TO BE ABOLISHED?

WHAT C. H. J. TAYLOR SAYS &C.

But then for a Recorder, this man can't be beat,
And if you want a posish, must kneel at his feet.
A man he must surely, turn away in disgust.
For fear that this wind bag, from Kansas will bust.
But then for a job, women need not to holler,
If they fall to his ways, you can bet your last doller.
Of jobs he has plenty, I understand by the score,
And for all lady applicants keeps a man at the door.
His work is done, to me this is clear,
For soliciting from clerks, will send him from here,
So of "Twenties" and "Acres," he need not to brag.
For Civil Service Commission, will cause him to flag.
Yes Taylor must flag, of that I am sure,
To Countries unknown, or certainly newer,
He will not do here, we admit as a fact,
If he does previous "Records?" all will be cracked.
Yes Taylor must go, for which we all pray,
And in saying good bye, we hope that he may,
Go back to Kansas, or Liberia, Afar,
And behave ever after, and try and act squar.
To which he is entitled, as we all do know,
But we are content, to let Taylor go,
To a far off country by land or by sea,
For the District has no use, for such people as he.

Gus.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL
AND PHOSPHATES OF
LIME, SODA, IRON.

The truly wonderful effect produced by Dr. Alexander B. Wilbor's Compound of Pure Cod-Liver Oil and Phosphates renders it beyond doubt the most perfect preparation of its kind known to-day.
Consumption, coughs, colds, asthma, debility, wasting diseases and all scrofulous humors disappear under its influence. It is almost as palatable as cream. It can be taken with pleasure by delicate persons and children, who, after using it, become very fond of it. It assimilates with the food, increases the flesh and appetite, builds up the nervous system, restores energy to mind and body, creates new, rich and pure blood, in fact, rejuvenates the whole system, flesh, blood, nerve, brain. This preparation is far superior to all other preparations of cod-liver oil; it has many imitators, but no equals. The results following its use are its best recommendations. NOT COLOR NOR POLITICS.

The would be recorder of deeds, C. H. J. Taylor wants to pretend that he is being prosecuted on account of his color. O! no Mr. Taylor the people will have no more color racket, you must stand up to the rack. Taylor and Astwood had Rev. Geo. McGoines appointed in the Interior department and a few weeks thereafter they wrote a letter requesting his dismissal be cause he would not give up 15 dollars to P. H. White, otherwise the preacher alias, the coat man or the coat that walked from the church without hands.

Will C. H. J. Taylor and his chief lieutenant Astwood and White say that it was on account of color that they should do such notorious acts?

The BEE desires to inform President Cleveland that Mr. Taylor is not opposed on account of his democracy or color. It is because he violated the Civil Service law, the law of common decency, etc. Be he democrat or a republican his retention as recorder of deeds will be an injury to the colored race.

A new weekly Journal is to be published by Taylor, Astwood and Pulies. The paper is expected to perform wonders by its owners. All of these spasmodic efforts toward developing the race always spring up on the eve of an election like mushroons, they spring up in a short time and die equally as quick. Taylor and Astwood got out a prospectus for a paper just before the last Presidential campaign, advertisements and financial aid from their friends and no paper materialized. This is the daily, just as the BEE said. Read the BEE for truth.

If President Cleveland had read the "Journal" as carefully as he ought to he would have discovered that C. H. J. Taylor was not the right man to appoint in the first place

Kansas City would very much regret to see C. H. J. Taylor lose his job at Washington. If he should be ousted he would probably return to Kansas City.

These are the sentiments of not only the K. C. but Wynandotte, Co. your fight is highly endorsed being true to the letter.——K. C. Journal.

WE TAKE THE CAKE.

Where one sees with what ease the negro slides down the scale of depravity with all their superior advantages socially, intellectually and religiously, they sink (without an effort to resist) to the lowest depths of human depravity. one is compelled to ask whether the negros are progressing, why we are caracatured in the papers and on the stage, and are ostracized by all other races; stand on the side walk and notice the antics of the negroes as a band passes during a parade. Girls and boys whose fathers and mothers have worked hard, late and early to enable their children to have a school ing, are all doing their best to show how low the negro can become. In the parade Wednesday what did we see? "Some were yellow, some were black, some were lean and some were fat; some were shoeless' some wore hats, some of them smelt bad this is a fact, some were tall and some were lean, some were dirty and few were clean, some were dancing others strutting, some were ugly some good looking; all were happy the band was playing, Be careful white folks what you're saying For we is de people there is no denying. We take the cake without half trying."

HE IS A WIND BAG.

From the Texas Globe.

We are often accused as a race of over-doing things. Our acting is frequently a side-splitting burlesque; our "stern alarums" simply the noise of a cheap whistle. Now here comes that gross comedian and political acrobat, C. H. J. Taylor, "fat frying," as it has never before been seen in any of the Washington departments. But then every body knows that Taylor is not a statesman; he is a very cheap class of tinhorn politicial brigade.

THE COLORED MILITIA.

THE ORGANIZATION GOING TO RUIN.

GEN'L. ORDWAY DEFENDED.

There is general disatisfaction among the friends of the first Separate battalion.

The impression among some is that Gen'l. Ordway retains Major F. C. Revells in command to embarrass the organization. Personally it is said Major Revells is alright, but as a commanding officer of the battalion he is a failure and Gen'l. Ordway is aware of this fact. On the other hand some of the officers maintain that Gen'l. Ordway is friendly to the colored battalion and will remove Major Revells as soon as practical. There is no reason to retain Major Revells if he is incompetent to fill the position.

Every white organization more-or-less has been or gone in camp except the colored battalion, and the cause of this is that Major Revells has not the respect and confidence of his men. Whenever he asks for a contribution his men laugh at him and make all kinds of uncomplimentary remarks about him on account of his lack of ability to control the men.

The BEE would suggest to Major Revells to resign for the good of the colored militia of the District.

The attention of Gen'l. Ordway has been called to the seeming neglect and incompetency of the Major, but what disposition Gen'l Ordway will make of the colored Major is not known, but if something is not done very shortly there will be no first separate battalion in this city and Major Revells will be held responsible for its disbandment.

Pension Office Sweep.

OUR FLAG INSULTED.

Trampled Under Foot and the British Flag Hoisted in its Place.

London, Aug. 15.—A dispatch to the Times from Port Limon, Costa Rica, dated August 12, says: "The British cruiser Mohawk has arrived here from the Mosquito country with Chief Clarence and 112 refugees aboard. Bluefields was retaken by 2,000 Nicaraguans, who arrived from Rama and Greytown aboard transports flying the United States flag.

The American marines re-embarked on their approach, abandoning the American residents, many of whom removed the national flag from their houses, trampled upon it, and hoisted the British flag. The Nicaraguan officials, on entering the government house, hauled down and tore into shreds the Mosquito flag and arrested numerous Americans and Jamacians suspected of sympathizing with Chief Clarence. Capt. Stewart, of the Mohawk, went into the prison and rescued all who were willing to claim British protection. The Mohawk remains at Port Limon awaiting orders from Great Britain. Chief Clarence is still aboard the Mohawk."

LIQUOR DEALERS.

What the Wine and Spirit Gazette Says About Mgr. Satolli's Views.

New York, Aug. 15.—The Wine and Spirit Gazette says: "A careful survey of the whole field justifies us in stating that Mgr. Satolli's views of the relation between liquor dealers and the church are not likely to be carried out by the bishops in the cities of the country. We predicted such result in our issue of July 25. The full discussion which the whole matter has received in the press has been the means of disclosing to the dignitaries of the church a great light. Archbishops and bishops have publicly declared their intention of ignoring Mgr. Satolli's admonitions. The result is a great triumph for the cause of personal liberty."

TWO FIENDS.

Indignant Whites Lynch Negroes for a Vile Assault.

Jacksonville, Fla., Aug. 15.—Two negroes, who outraged Miss Potts in Lafayette county a few days ago, were caught near McAlpine and confessed their guilt. They were taken to the scene of the crime and lynched. The victim was only fourteen, and her mind is so affected by the terrible experience that it is feared she may never recover her reason.

Millions of Gallons of Whiskey.

Washington, Aug. 15.—Reports received at the treasury department, from whiskey-producing centres, state there is a great rush to take whiskey out of bond at the old rate of ninety cents a gallon before the new tax, $1.10 per gallon, becomes operative. At most of the large distilleries whiskey in bond has already been gauged, ready upon payment of the tax, to be withdrawn. A conservative estimate places the amount of whiskey in bond at 60,000,000 gallons.

Raising the Price of Whiskey.

Peoria, Ill. Aug. 15.—The Distilling and Cattle Feed Company has advanced the price of cattle feed $5 per ton all around. This was due to the big increase in the demand for the products caused by the passage of the Senate bill. The force of gaugers has been largely increased, and the revenue colections jumped from $20,000 a day to more than $164,000. This increase is expected to continue till the tariff law goes into effect.

EUROPE TO TAKE A HAND.

Rumors That the Powers Will Demand That Corea be Let Alone.

London, Aug. 14.—It is rumored in St. Petersburg that England intends to propose that the powers co-operate in demanding that both China and Japan withdraw their forces from Corea forthwith, and intrust the Government of the peninsula to an international conference.

The rumor is the subject of much comment. The opinion is general that Russia would never consent to such a proposition. She prefers to let events take their course while her interests are not menaced.

The Vienna correspondent of the News says that England, France and Russia have agreed not to tolerate an attack on Pekin. Their respective squadrons have been instructed to interfere if the Japanese attack Taku.

The Shanghai correspondent of the Central News says that a strong Chinese fleet has left the coast. The impression in Shanghai is that this fleet will seek to intercept the transports which are carrying Japanese troops to Corea.

There were only a few ironclads among the Japanese vessels that attacked Port Arthur and Wei-Hai-Wei. Most of the fleets were merchantmen which had been converted hastily into cruisers and were carrying troops for work ashore. What has become of the Japanese fleet since the morning of the 11th nobody in Shanghai has heard.

There is considerable apprehension along the Chinese coast of the Yellow Sea, and small steam vessels are scouting constantly, but no view of the hostile squadron was obtained either yesterday or to-day.

The Chinese were alarmed greatly by the attack on Wei-Hai-Wei. More submarine mines have been laid before Taku and Wei-Hai-Wei.

The British war ship Mercury left Chee-Foo at noon on Saturday for Wei-Hai-Wei to protect the foreigners at the latter port.

Many of the buoys along the Chinese coast, most notably in the neighborhood of the threatened ports, have meen removed.

"DEFENCE NO DEFIANCE."

Anarchist Mowbray and His Howlings at Newark, N. J.

Newark, N. J., Aug. 14.—Abaut 200 people attended Oertel's Park last night to hear William A. Mowbray, the English Anarchist. Mowbray plunged at once into an address on "How shall we organize," He said that labor organizations were a power but must be reckoned with the politicians.

"And still the laboring men inscribe on their banners, 'Defense, No Defiance.' How good they are to let the juggernaut run over them! But then there will be a kick some day, and when the Anglo-Saxons kick they kick hard.

"Then the capitalistic press will howl for gatling guns to shoot down the poor. I have seen shooting galleries. Why dont you procure guns and learn to shoot? There is no law against that. Gens. Wallace and Schofield have said 'Shoot to kill.' So I would say, too, 'Shoot to kill,' but if you can't kill don't shoot.

"Then the capitalistic press will have to work to pay the expenses of the Earl of Dudley and his mistress. The wine the rich drink in their gilded salons is the blood of your children with which they quench their abominable thirst. So are all the luxuries of the rich at the expense and degradation of the working poor."

THE TARIFF.

The Senate Bill is Passed in the House.

Washington, Aug. 14.—The House passed the Senate tariff bill last night in accordance with the determination of the Democratic caucus. The "trust" Senators have won for the time being. Their schedule was adopted in spite of the statements that the House would never surrender. Rather than see all tariff legislation defeated the House passed the Senate bill by a vote of 182 to 105. Then there were four new bills introduced, passed without being referred to any committee and sent to the Senate. The first provided for free sugar and was passed 276 to 11; the next for free coal, 160 to 104; free iron ore, 163 to 102, and free barbed wire, 187 to 84.

Two hours debate was allowed on the question, shall the Senate amendments be agreed to? and several tart speeches were made. Mr. Cockran made a bitter speech, and Mr. Reed grew sarcastic as usual. Mr. Wilson made an explanatory speech and then the vote was taken. After the announcement of the result, Mr. Wilson sent up the four other bills which were passed and at 10:25 the House adjourned.

HE WANTS MONEY.

Prince Von Birstein Looking for a Wife to Recuperate His Fortunes.

Newport, R. I., Aug. 14.—Prince Isenberg von Birsten, whose reported engagement to Miss Florence, daughter of George M. Pullman, was much talked of last summer, has just called to several intimate friends here, including the Havemeyers, that he is soon to marry a young Englishwoman of considerable wealth. The Prince, who is a great-great-grandnephew of Marie Antoinette, is the owner of thirty palaces more or less, many of which are in need of thorough overhauling. It is the gossip here that he was once, and not so very long ago, an aspirant for the hand of Miss Annie Gould.

THE MODERN RECORDER.

OTHERWISE THE WINDBAG.

COMMENTS OF THE COLORED PRESS.

From the Western Optic.

C. H. J. Taylor seems to be standing on sinking sand. Poor fellow.

From the Kansas Messenger,

Colonel Calvin Chase of the "Washington Bee," is making it lively for that political rhinoceros in the Recorders office. Don't Colonel. Just let him alone a little while and like the Irishman's deer, he will breake his own neck.

From the Kansas Mesrage.

A more stupendous farce than the meeting of the National Negro Democratic convention, at Indianapolis, Ind. last week, was never witnessed by the people of this country. This mob of relentless sorehead, political boodlers will come as near splitting the colored vote of the nation as the Democratic party will be able to explain their position on the tariff to the satisfaction of the people. Taylor and the balance of this gang belong to that school of American politics which has for its motto, "We are anything for office." These seventy negroes, representing (?) thirty-five states, control seventy votes, which they will sell to the highest bidder in November. If, through the agency of this crowd of ignobles, the Democratic party hopes for a new lease of life, we would suggest that resignations are in order to avoid the crushing defeat in November.

From the Omaha Enterprise.

Mr. C H. J. Taylor ring master of the Democratic circus which convened in Indianapolis, and Recorder of Deeds of the District of Columbia, is in the toils. It appears as if he forgot that there was such a thing as a civil service commission in existence, and is receiving a very disagreeable reminder of the fact that this organization has not been abolished by his patron saint

From the Texas Globe.

C. H. J. Taylor is in trouble way up to his democratic assinnine ears. By the time the civil service committee finishes the fat frying career of Recorder of Deeds Taylor, the only sign that Taylor ever was with us politically, will be an immense grease spot.

From the Denver Statesman.

C. H. J. Taylor, the Kansas Negro who is it Washington on a good job, made a scene in congratulating Moore on his beating Funston. Southern Democrats were disgusted, and said they would like to take the vote over again. Taylor claimed to have secured Moore's seat for him.—Ex.

ME TOO.—ME TOO.

Persons passing the recorders office last Tuesday would have been surprised to see the shortest recorder, the District has ever had morally, physically or financially. He came running out of his office meeting the tallest negro democrat the District has ever housed. The height that this democrat has reached is something wonderful; he has reached the political height necessary to make a fool of himself. He has gained fame as a preacher, he has soared the heights of a prosperous business man, but, like all things that fly to the air, they must come down to the earth for food.

The man who has the dispensing of food to those peculiar birds, had thrown him food enough to last four years, but a white duck that was in the barn yard, objected to this bird with beautiful plumage, but the rank smell that entered the nostrel of the other birds, made them sick and the duck that was present snatched the food and ran away.

Just a crumb would satisfy this creature now.

"I said that you would be surprised to see the long and short of it standing in front of the recorders office dressed in a beautiful black alpaca coat two sizes too large for him, holding on to a newspaper looking blindly up into long's face and remarking, what is to be done?"

These black birds kept you from getting your food, now they are after mine, "what shall we do?" He clutched the newspaper convulsively in his hands, in one corner the word BEE could be seen) exclaimed "that such a small sheet could create so much trouble, I would not believe it." They whispered a while together, finally separating, one going to the White House and the other to the Pension office. One plead for retention, and the other to clip one of these black birds wings. Alas! they both got left.

A representative of the BEE passing the recorders office window at four thirty the following lines in bass and tenor poured forth melodiously with his private secretary joining in the refrain.

"I am not as big a man as I thought I was, no you aint; no you aint.

I must find out what Grover is going to do. Oh! do. It looks very much like I have got to go. Me too. Me too.

Denver is now passing through one of the most remarkable crises in the history of any American city. In two months a large community has been plunged from a fancied condition of assured prosperity to a state of extreme depression. The change has been so sudden the people hardly realize it, and no one is convinced that the new conditions will last long. The change is due to the shut down of the silver mines.

GRAND PREMIUM OFFER!
A SET OF THE
WORKS OF CHARLES DICKENS,
In Twelve Large Volumes,

CHARLES DICKENS.

Which we Offer with a Year's Subscription to this Paper for a Trifle More than Our Regular Subscription Price.

Wishing to largely increase the circulation of this paper during the next six months, we have made arrangements with a New York publishing house whereby we are enabled to offer as a premium to our subscribers a **Set of the Works of Charles Dickens,** in **Twelve Large and Handsome Volumes,** with a year's subscription to this paper, for a trifle more than our regular subscription price. Our great offer to subscribers eclipses any ever heretofore made. Charles Dickens was the greatest novelist who ever lived. No author before or since his time has won the fame that he achieved, and his works are even more popular to-day than during his lifetime. They abound in wit, humor, pathos, masterly delineation of character, vivid descriptions of places and incidents, thrilling and skillfully wrought plots. Each book is intensely interesting. No home should be without a set of these great and remarkable works. Not to have read them is to be far behind the age in which we live. The set of Dickens' works which we offer as a premium to our subscribers is handsomely printed from entirely new plates, with new type. The twelve volumes contain the following world-famous works, each one of which is published *complete, unabridged, and absolutely unabridged:*

DAVID COPPERFIELD,
MARTIN CHUZZLEWIT,
NICHOLAS NICKELBY,
DOMBEY AND SON,
BLEAK HOUSE,
LITTLE DORRIT,
OUR MUTUAL FRIEND,
PICKWICK PAPERS.

BARNABY RUDGE AND CHRISTMAS STORIES,
OLIVER TWIST AND GREAT EXPECTATIONS,
THE OLD CURIOSITY SHOP AND THE UNCOMMERCIAL TRAVELER
A TALE OF TWO CITIES, HARD TIMES AND THE MYSTERY OF EDWIN DROOD.

The above are without question the most famous novels that were ever written. For quarter of a century they have been celebrated in every nook and corner of the civilized world. Yet there are thousands of homes in America not yet supplied with a set of Dickens, the usual high cost of the books preventing people in moderate circumstances from enjoying this luxury. But now, owing to the use of modern improved printing, folding and stitching machinery, the extremely low price of white paper, and the great competition in the book trade, we are enabled to offer to our subscribers and readers a set of Dickens' works at a price which all can afford to pay. Every home in the land may now be supplied with a set of the great author's works.

LOW TARRIF.

Was the Decision of the Democratic Caucus—Senate Bill to Pass.

Washington, Aug. 13.—The passage of a low tariff bill is now assured. At the Democrat caucus this morning the Crisp resolution to accept the Senate bill was adopted by a vote of 130 to 21.

Speaker Crisp's resolution was that the House should recede from its position and accept the Senate bill. The resolution also includes a provision placing barbed wire, sugar, coal and iron ore on the free list by a series of separate bills.

One hundred and fifty-three members were present at the caucus when Chairman Holman called it to order. Mr. Wilson took the floor, evidently laboring under deep emotion. He devoted the opening portion of his speech to making explanations of the embarrassments under which the House labored. That they failed to reach a satisfactory conclusion, honorable alike to the House and the Democratic party was not their fault. He made the startling statement on the authority of a leading Democratic Senator that the trust had bought $112,000,000 worth of sugar in foreign markets in anticipation of the Senate schedule receiving the approval of the President. This will result in a profit of $40,000,000. His declaration that "the Sugar Trust has the people by the throat," and that it was now "a battle between the people and the trust," received hearty applause.

Speaker Crisp followed. He began by saying the House must take the Senate bill. He moved that the House recede from its position and accept the Senate bill, which motion was carried.

THE PERILS OF THE RAIL.

A Freight and a Light Engine Collide Near Buffalo.

Buffalo, Aug. 13.—A collision occurred at 6:30 this morning between a Lehigh Valley freight train and a Buffalo Creek railroad locomotive, which was running light. Both locomotives were badly damaged, and two freight cars and an oil tank car ditched. Three men were injured. The accident occurred at the Elk street crossing of the Buffalo Creek railroad, over which the Lehigh train was being switched to the Nickel Plate tracks, when the light engine crashed into it. The injured men were employed in the railroad shops, and were riding to their work on a freight train. Their names are John Sulkeries, leg crushed, had to be amputated; Michael Fisher, four ribs and right arm broken; Tony Janoski, injured internally.

Anderson, Ind., Aug. 13.—Tom, the twelve-year-old son of Thomas Dickinson, of Pendleton, saved a score of lives last night. A passenger train was side-tracked at this city waiting for a fast freight to pass. By some oversight, the switch was left open. Tom, who was playing near by, noticed it was open. He took in the situation, grabbed the handle, and when the engine was less than fifty feet away, threw the switch. The next instant the freight train rumbled past the passenger coaches. As the freight train was going at a high rate of speed, a wreck would have been terrible.
